

Halton-Hamilton Source Protection Committee

Christopher Murray General Public Representative

Christopher Murray represents the interests of the general public on the Halton-Hamilton Source Protection Committee. Mr. Murray is a resident of Milton and an Environmental Scientist acting as the Environmental & Regulatory Compliance Manager at Baffinland Iron Mines in Oakville. He has thirteen years of experience in consulting and mining across various disciplines including contaminated site assessment, site remediation, human health risk assessment, mine closure and reclamation, hydrogeology, soil vapour intrusion, air quality, environmental management, permitting, development of risk management and mitigation measures, and surface water monitoring and management. Mr. Murray is experienced in public and regulatory consultation, and brings a strong technical background and solutions oriented approach to the Source Protection Committee.
