

Report To: Halton-Hamilton Source Protection Committee
Report No.: SPC-24-04-10
From: Bob Edmondson, Chair, Halton-Hamilton Source Protection Committee
Date: March 19, 2024
Subject: SPC Chair Update

Recommendation:

THAT the Halton-Hamilton Source Protection Committee receives for information report SPC-24-03-10 SPC Chair Update.

Executive Summary

The SPC Chair and a number of committee members managed a display booth on the program at the Milton Sports Centre.

Report

The Chair and committee members Emily Milligan and Chris Murray set up a display booth at the Milton Sports Centre on the weekend of February 24 and 25.

The venue is a large Sports Centre including hockey rinks (4), a pool, and gymnasium, fitness studio, walking/running track and meeting rooms. There was considerable traffic over the weekend predominately relating to children in skating lessons or playing hockey. Display panels were set up and videos on a continuous loop were played relating to our program. As well, we had an assortment of brochures and pamphlets that were handed out.

In talking to the people, it is apparent that very few know about the program but are pleased to hear that it is in place and our committee involvement. The lack of knowledge about the program is what we have typically encountered in other venues. The overall experience was positive and setting up at such a venue gives us access to a wide variety of people. We had similarly looked at putting up a booth at the large YMCA in Waterdown but were asked to delay it until April or May.

Respectfully submitted,

Bob Edmondson
SPC Chair, Halton-Hamilton Source Protection Committee.
